Point of Sale (POS) Features

GreenLyfe360's point of sale solution is designed specifically for cannabis retailers. It streamlines every aspect of your store, from compliance and inventory to customer check-in and sales. The system is tried, tested, and continually improved to help you save time, reduce errors, and make things easier for your team and your customers.

Recreational & Medical

Run your entire business by configuring your stores as medical or recreational. Fully integrated with Metrc, GreenLyfe360 allows you to sync down transfers and submit sale orders in real time.

Inventory Management

Automatically manage your inventory through transfers, vendor purchase orders, and consumer online transactions. Configure custom fields such as legal limits, COGS or pricing.

iPad & Mobile App

Available for iOS, the mobile application runs your POS stations while also giving you access to your business anywhere you go.

Hardware Integrations

Connect to Zebra barcode readers and scan products directly into an order. Print sales reports or receipts by connecting to your EPSON printer.

ID Verification

Quickly check-in customers at the door or station by scanning their license. Easily verify and create new customers to track their purchase order history. Validate age and save personalized notes.

Product Labeling

Quickly print labels for any transfer or vendor purchase order. Labeling your products makes compliance simple while moving your customers in and out of the store with speed.

Ecommerce Site

Direct customers to your store's ecommerce site using our GreenLyfe platform. Your inventory will always stay in sync as online orders flow directly into the GreenLyfe360 POS app. Customize your product photos and store favorites.

Discounts & Loyalty

Apply dynamic or manual discounts to any order. Create discount groups that are assigned to certain customers at checkout or sign them up for your loyalty program so they can accrue points for later purchases.

Scheduling & Timecards

Schedule recurring shifts for your employees. Use the timecard system to check employees in and out for the day, including breaks. Populate your payroll with your real-time reporting data.

PIN & Face ID Login

Set up a 6-digit PIN to easily switch between employees at a station. Use your device's fingerprint or Face ID feature to log into GreenLyfe360 in seconds.
